Mr. Jensen--Senior  
Class Sponsor

As we, the Seniors of W.P.H.S. set our goals and look for our place in the future, we must realize that in spite of the hardships and trials of life we have the opportunity to meet these obstacles, learn from them, and create a better world because of them. Thus, we are not at the end of our education, but at the beginning of our education; the one that we will receive from the world before us. Even though we will go our separate ways, we will never forget the contributions our school has given to us and hope that we may give as much in return.

It has always been an exciting and rewarding experience to be the sponsor of the Senior Class.

The Senior Class of Wisner-Pilger has been no exception. It is exciting to see the "green freshmen" become the "terrible, terrible, sophomores," who suddenly are again accepted back into the human race as the "grown-up juniors," and then go on to become the "almighty seniors."

The talents of this first Wisner-Pilger graduating class are many and varied. Students never cease to amaze me in that when I feel a class has accomplished the "unaccomplishable" another class comes along and proves me wrong.

To the "Class of 1970" I extend my sincere congratulations and may you always enjoy the best in life.

## SENIOR GATORS

As we the Seniors of 1970 look back on the past four years, memories both good and bad come to mind. Each year brought new experiences and greater challenges than the one before.

The joining together of the two schools marks the beginning of a new era--new activities, new friends, and a new school. We hope the standards we have set will serve as an example to those who follow in our footsteps. Though our lives lead us down separate paths, Gator memories will always remain.
