ROLL N. 9

ROLL NOTES

Roll 9

November 1897-June 1900

Furnas's activities as Secretary of the State Board of Agriculture constitute the major portion of correspondence on this roll. There are a number of letters regarding the cancellation of the Nebraska State Fairs of 1898-1899 and Nebraska's participation in the Trans-Mississippi and International Exposition and the Greater American Exposition held during those years. J. Sterling Morton, J.B. Dinsmore, and several agricultural associates of Furnas direct their letters to a discussion of Nebraska Populism, comment on the nursery business, and make suggestions for the promotion of particular aspects of Nebraska agriculture, including fairs and experiment stations.
